Observations from CLC

“This quarter shows call seeker growth, with PDP creation increasing significantly each month, surpassing last quarter’s total by a wide margin. MDP creation also trended upward, indicating growing congregational participation compared to the previous quarter. However, calls completed declined overall and were substantially lower than last quarter’s total, suggesting that while activity and interest are increasing on both sides, the conversion to completed calls is lagging. This may reflect a longer discernment and matching process early in the year.”

To our mid council partners, thank you for your faithful leadership and for walking alongside us in shared ministry. As disciples journeying together, we are grateful for the ways you help convene, connect, equip, and empower the church toward God’s wholeness. “From him the whole body, joined and held together by every supporting ligament, grows and builds itself up in love, as each part does its work” (Ephesians 4:16). Your partnership embodies the trust, mutuality, and grace that sustain our collective witness to Christ.
